

YOUR AMAZON PLANET EXPERIENCE

Thank you for choosing Amazon Planet Lodge to experience the rainforest through a responsible tourism based on the best quality service and unique jungle experience with a vision of social, cultural and ecological responsibility as we preserve this important ecosystem with your help as a visitor.

Follow this guide to be well informed about and prepare for your jungle experience with us.

LOCATION. Tambopata, Madre de Dios, Peru. Arrive to Puerto Maldonado city. Our office is at 20min from the airport on the left bank of Madre de Dios river across the bridge just 5min from the Main plaza by car. Our Lodge is on the right bank of Madre de Dios river at 1h downriver (28km) only by motorboat from the city. Next to TARICAYA ECOLOGICAL RESERVE, inside the buffer zone of the Tambopata National Reserve, one of the most biodiverse areas in the world. Between us and Taricaya we protect 550 ha of well-preserved rainforest to explore and look for the fauna and flora typical of the region.

OUR CAUSE: TARICAYA RESERVA ECOLOGICA. Eco-touristic concession and nonprofit association dedicated to biodiversity conservation and sustainable management of natural resources in the Amazon rainforest of Madre de Dios. Staff and volunteers work daily on the different projects developed there. We develop the responsible tourism inside the reserve and contribute to its labor. **Part of our revenue supports Taricaya's projects. As our guest you visit and learn up close about them, helping in the conservation of the rainforest through your stay.**

Order of activities in itinerary may vary without notice and cancellation due to weather conditions and other external factors is possible.**

WASTE MANAGEMENT: Reduce, reuse, and recycle. Separate your waste in the designated bins. During your stay please **SEPARATE YOUR WASTE AND FOLLOW THE 3RS following our Green Code.**

IMPORTANT RECOMMENDATIONS FOR YOUR JUNGLE TRIP

CLIMATE: Tropical and humid with high temperatures throughout the year, especially August/September. Thermal sensation of the combined heat and high humidity sometimes feels near 45°C. Rains all year long, especially abundant November to March. Average annual T° in Puerto Maldonado is 25.4°C. Cold air masses from Antarctica drop T° below 10°C. These weather phenomena, locally called "friaje", may occur April to September.

OBSERVATION OF FAUNA: We are in the middle of a very pristine rainforest connected to the Tambopata National Reserve so there is high probability to observe all kinds of wildlife. Follow your guide's instructions and open all
